

Сравните, используя '&gt;', '&lt;' или '='.

**Ответы**

об)  $\frac{3}{5} > \frac{2}{5}$

1)  $\frac{1}{3} \quad \frac{1}{5}$

2)  $\frac{2}{3} \quad \frac{7}{10}$

об.         >        

3)  $\frac{3}{4} \quad \frac{1}{4}$

4)  $\frac{4}{6} \quad \frac{4}{5}$

5)  $\frac{8}{12} \quad \frac{4}{10}$

1.                         2.                         3.                         4.                         5.                         

6)  $\frac{8}{10} \quad \frac{7}{10}$

7)  $\frac{4}{6} \quad \frac{4}{4}$

8)  $\frac{2}{12} \quad \frac{1}{4}$

6.                         7.                         8.                         

9)  $\frac{8}{10} \quad \frac{2}{10}$

10)  $\frac{3}{5} \quad \frac{3}{12}$

11)  $\frac{1}{5} \quad \frac{1}{3}$

9.                         10.                         11.                         

12)  $\frac{1}{4} \quad \frac{3}{4}$

13)  $\frac{1}{6} \quad \frac{1}{4}$

14)  $\frac{1}{8} \quad \frac{4}{10}$

12.                         13.                         14.                         

15)  $\frac{5}{12} \quad \frac{2}{12}$

16)  $\frac{3}{6} \quad \frac{3}{3}$

17)  $\frac{6}{12} \quad \frac{3}{5}$

15.                         16.                         17.                         

18)  $\frac{6}{10} \quad \frac{5}{10}$

19)  $\frac{8}{10} \quad \frac{8}{8}$

20)  $\frac{4}{12} \quad \frac{6}{8}$

18.                         19.                         20.

Сравните, используя '&gt;', '&lt;' или '='.

об)  $\frac{3}{5} > \frac{2}{5}$

1)  $\frac{1}{3} > \frac{1}{5}$

2)  $\frac{2}{3} < \frac{7}{10}$

3)  $\frac{3}{4} > \frac{1}{4}$

4)  $\frac{4}{6} < \frac{4}{5}$

5)  $\frac{8}{12} > \frac{4}{10}$

6)  $\frac{8}{10} > \frac{7}{10}$

7)  $\frac{4}{6} < \frac{4}{4}$

8)  $\frac{2}{12} < \frac{1}{4}$

9)  $\frac{8}{10} > \frac{2}{10}$
