

Используйте знаки 'больше', 'меньше' или 'равно' при ответе.

**Ответы**

об)  $\frac{7}{8} > \frac{1}{4}$

1)  $\frac{1}{6} \frac{4}{5}$

2)  $\frac{3}{5} \frac{6}{8}$

об.         >        

3)  $\frac{8}{10} \frac{3}{5}$

4)  $\frac{11}{12} \frac{2}{6}$

5)  $\frac{6}{8} \frac{1}{12}$

1.                         2.                         3.                         4.                         5.                         

6)  $\frac{2}{3} \frac{4}{10}$

7)  $\frac{5}{10} \frac{1}{3}$

8)  $\frac{5}{6} \frac{1}{3}$

6.                         7.                         

9)  $\frac{7}{12} \frac{1}{3}$

10)  $\frac{1}{8} \frac{2}{3}$

11)  $\frac{1}{3} \frac{5}{8}$

8.                         9.                         10.                         11.                         

12)  $\frac{1}{6} \frac{2}{12}$

13)  $\frac{2}{10} \frac{6}{8}$

14)  $\frac{5}{8} \frac{1}{3}$

12.                         13.                         14.                         

15)  $\frac{1}{8} \frac{4}{12}$

16)  $\frac{2}{4} \frac{1}{3}$

17)  $\frac{4}{5} \frac{6}{8}$

15.                         16.                         17.                         

18)  $\frac{3}{4} \frac{2}{5}$

19)  $\frac{2}{8} \frac{2}{4}$

20)  $\frac{1}{8} \frac{3}{6}$

18.                         19.                         20.

Используйте знаки 'больше', 'меньше' или 'равно' при ответе.

**Ответы**

об)  $\frac{7}{8} > \frac{1}{4}$

1)  $\frac{1}{6} < \frac{4}{5}$

2)  $\frac{3}{5} < \frac{6}{8}$

об.           >          1.           <          2.           <          

3)  $\frac{8}{10} > \frac{3}{5}$
